MINISTER OF MUNICIPAL AFFAIRS

229 Legislature Building, Edmonton, Alberta, Canada T5K 2B6 403/427-3744

I take pleasure in presenting to the Members of the Legislature, municipal officials and other interested parties, the 1988 edition of the Alberta Municipal Assistance Programs. This publication is an inventory of grants and cost-sharing programs implemented for the benefit of Alberta municipalities and other local government entities.

The material deals primarily with provincial financial assistance programs. However, certain federal programs have been included, particularly those which are co-ordinated by the province under agreement. Again this year, a separate table of contents has been provided for grants available to community associations, organizations and other interest groups.

Basic information is provided in a concise format and the departmental contact is identified for each program. This publication is for reference purposes only and is not intended as a substitute for the Provincial Statutes, Regulations or specific instructions and explanatory material issued from time to time by the various provincial government departments.

This year marks the eleventh consecutive year of publishing and the twelfth such issue since its inception in 1976. The material was compiled by the staff of the Municipal Services Branch, Alberta Municipal Affairs. Municipal Affairs acknowledges the valuable contribution all departments have made over the years and expresses its appreciation to all officials for their time and effort expended to complete this publication.

Minister

FOREWORD

This 1988 revised listing of Alberta Municipal Assistance programs replaces the 1987 publication in its entirety. This revised edition reflects any changes, additions or deletions to the provincial assistance programs. These additions, deletions, transfers or consolidations are reflected in the appendices.

The table of contents in this issue has been divided into two sections. The first section is a listing of all the programs. The second section is a listing of programs available not only to municipalities but also to community associations, organizations and other interest groups.

The various provincial grants and cost sharing programs have been compiled in this publication to provide municipal officials, government employees and the general public with concise descriptions of the numerous programs currently available to Alberta Municipalities, to other government entities and to organizations undertaking co-operative projects. Also included in this survey of available programs are those jointly funded by the Federal and Provincial governments.

The information contained in this booklet is NOT a complete inventory of the provincial assistance programs as programs for individual or non-government organizations have been specifically excluded except for some multi-faceted programs as outlined under Alberta Recreation and Parks and Tourism. The primary purpose of this publication is for reference only with more detailed information to be obtained from the contact person(s) listed on each program.

Through the F.C.S.S. process, the community is able to identify its own needs and resources and, using volunteers where possible, establish programs to enhance the quality of individual, family and community life.

2. Major features include:

   -- local autonomy in program development, priority and delivery
   -- 80% provincial and 20% municipal cost-sharing
   -- volunteer involvement
   -- early attention to problems before crises develop
   -- variety of approaches depending on unique community needs.

3.1.2 **ELIGIBILITY** -- all Albertans, including Treaty Indians, where the local government has entered an agreement with the Province to provide the service.

3.1.3 **DESCRIPTION** -- Each program develops differently to meet local requirements, but some general types of services have emerged such as:

Community - volunteer development, information and referral, community workers.
Family - counselling, family life education, parent-child development.

senior citizen - social/recreational drop-in centres, outreach programs.
youth - youth workers, outreach programs, boys' and girls' clubs.

3.1.4 **FINANCING** -- the Province provides 80 percent advance per capita funding to municipalities in two components: Administration and Planning; F.C.S.S. Program Delivery.

3.1.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.3.1, page 125.

3.1.6 **TIME FRAME** -- This is an ongoing program of the Provincial Government that has no known termination date.

Where an applicant is claiming volunteer labour, the rate of pay is to be calculated at the provincial minimum wage, with the exception of skilled trademen's wages.

To be eligible to apply for and receive grants, projects must be approved in writing by the Assistant Deputy Minister, Historical Resources Division, prior to the commencement of any physical work on the historic resource.

While designated site owners are eligible to apply for grants to assist in such work, these grants are entirely discretionary and subject to adjudication by the historic sites board and the availability of funds. ALBERTA ECONOMIC DEVELOPMENT AND TRADE

5.1 RAILWAY FACILITY RELOCATION POLICY

5.5.1 **OBJECTIVES** -- The Province recognizes the potential developmental benefits, to Alberta's smaller cities, of access to centrally located railway land no longer required for railway operating purposes. In keeping with this recognition, the Province wishes to assist these cities in carrying out railway facility relocation projects.

5.1.2 **BACKGROUND** -- In 1975, the Province of Alberta, jointly with the federal government, sponsored railway relocation studies undertaken by Alberta cities under the Canada Rail Relocation and Crossing Act. In October, 1977, the federal government withdrew from further funding of studies and announced it had cancelled any consideration of assisting actual rail relocation projects.

The Province's involvement in railway relocation studies was shortly thereafter expanded, including an ongoing commitment to assist the implementation of viable railway relocation projects.

5.1.3 **ELIGIBILITY CRITERIA** -- The Railway Facility Relocation Policy will apply to Alberta's smaller cities who are able to demonstrate that:

1. Substantial quantifiable benefits to the urban development objectives of the city can be achieved through release of land presently occupied by railway facilities, and

2. The potential value of lands released through railway facility relocation project will make a substantial contribution to the cost of the relocation project, and

3. Existing railway facilities create a significant barrier to the provision of efficient transportation services within the city, and

4. In the view of the affected railway, the relocation of facilities is feasible in light of system-wide operational requirements, and

5. Existing railway rights of way provisions through the city are maintained under the proposed railway facility relocation project.

The Railway Facility Relocation Policy is not designed to apply to the two largest cities of Alberta, who generally have the in-house planning and financing capability of dealing with such

projects, nor to Alberta towns who would not normally be able to meet the eligibility criteria of this policy.

Notwithstanding the above, the Province may, upon specific project application, determine this policy, or portions thereof, to apply to a larger city or town if such a project meets the eligibility criteria and could not proceed without the Provincial involvement provided by this policy.

5.1.4 **THE DELIVERY PROGRAM**

Part I - Studies - The Province will contribute 50% of the cost to a city, of carrying out an approved railway facility relocation feasibility study. Involvement of the affected railway, the relevant and/or local planning authority must be solicited and obtained.

Part II - Negotiations - Where the railway relocation feasibility study determines the proposed project to be viable, meeting all eligibility criteria of this program, the Province will assist the city in negotiating the concurrence of the affected railway.

Part III - Relocation Projects - Where the joint province/city negotiations with the affected railway have resulted in a mutually acceptable plan for railway facility relocation and for the sharing of costs thereof, the Province will assist the city in financing the implementation of the project. The Provincial financial contribution will be 50% of the city's costs in implementing a railway facility relocation project. The 50% Provincial cost sharing, while considered level of city and Provincial commitment to a project, may vary from project to project on the basis of the specific needs of a city and the estimated timing of returns from sales of lands released by a relocation project.

Subject to the preparation of adequate roadway and public transportation plans, and the preparation and guarantee of a suitable land-use plan for lands released by the project, the Province will jointly with the city, take an investment position in the project. The eligible urban municipality shall establish a mechanism to implement the project and to dispose, by sale or lease, of released lands.

First right of refusal on the purchase or lease of such lands shall be offered to the city and the Province, but in all cases, sales or leases shall be at the then prevailing market rates.

Revenues from the sale or lease of lands released by a railway facility relocation project will, after meeting the administrative costs of such transactions, be distributed between the city and the Province in the same ratio as each contributed to the cost of the project.

6.1 EXPLANATION OF SCHOOL GRANTS

6.1.1 Numerous school grants that apply to all "school areas" are available from Alberta Education. These "school areas" include school districts, school divisions, counties, or a city or town having merged administration under the Municipal and School Administration Act. These grants are made possible through regulations under the School Act and the Department of Education Act.

There are, however, NO Alberta Education grants for which municipalities can directly make application. The only Alberta Education grants available must be applied for by the Board responsible for school administration.

7.2 ALBERTA WATER MANAGEMENT AND EROSION CONTROL PROGRAM

7.2.1 **OBJECTIVES** -- To provide cost sharing to local authorities for the enhancement and regional development of the province's water resources and to provide corrective measures where water, in its natural state, creates conditions adverse to the public interest.

7.2.2 **ELIGIBILITY** -- This program is available to all Alberta local authorities.

7.2.3 **DESCRIPTION** -- Projects such as flood control, drainage, erosion control, water conservation and lake level control must be initiated by a local authority, and a need for such a project must be established. The project must be in the public interest and provide benefits to the general public or protect public investment. Detailed project planning and consideration of all aspects of water resources and environmental management must precede implementation. Normally, the local authority initiating the project accepts the responsibility for land acquisition, and operation and maintenance costs. In special cases the landowners may assume this responsibility or Alberta Environment may cost-share the operation and maintenance.

Agreements are entered into between the Minister of Environment (under the Water Resources Act) and the local authorities. Projects are funded on the basis of the budgetary priority for water management established by the government.

7.2.4 **FINANCING** -- Cost sharing on a 75-25% basis (Government funding up to 75%). The program also provides for 86-14% cost sharing on agricultural flood control, drainage, or erosion control projects.

7.2.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.7.2, page 126.

ALBERTA MORTGAGE AND HOUSING CORPORATION

8.1 COMMUNITY HOUSING PROGRAM

8.1.1 **OBJECTIVES** -- To provide subsidized rental housing for low and moderate income families unable to secure affordable private-sector accommodation.

8.1.2 **ELIGIBILITY** -- The sponsor of a Community Housing Project is normally the local municipality. The need for community housing in smaller municipalities is determined by the feasibility study undertaken by the Corporation.

8.1.3 **DESCRIPTION** -- Management and tenant selection are delegated to a local Housing Authority whose members are recommended by the local council, a Provincial and sometimes Federal nominating committee, and appointed by Provincial Ministerial Order. Tenants are selected on the basis of need, as determined by income, assets, housing condition and length of time on the waiting list. The municipality applies directly to the Alberta Mortgage and Housing Corporation. The Corporation reviews and researches submissions which the Corporation Board approves within the framework of the annual budget.

As an alternate delivery method to Community Housing, Alberta Mortgage and Housing Corporation may provide affordable accommodation in private-sector buildings, housing co-operatives or Corporation-owned properties through a rent supplement. Rent supplements may be used in designated communities where there are high vacancy rates in the private sector and a need for affordable accommodation by low-income families. The rent supplement is based on the difference between the market rent and the subsidized rent. The supplement is shared up to 70% by Canada Mortgage and Housing Corporation. The balance is paid by Alberta Mortgage and Housing Corporation.

8.1.4 **FINANCING** -- The Alberta Mortgage and Housing Corporation is the major developer of Community Housing, supplying 100% of upfront capital costs for projects, through debentures written with the Alberta Investment Division of the Alberta Heritage Savings and Trust Fund. Canada Mortgage and Housing Corporation provides cost-sharing of up to 70% of net operating costs, including amortization on the portion of the capital cost within their approved Maximum Unit Price, over 35 years. The balance of the costs are shared between AMHC and the municipality.

8.1.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.8.1, page 126.

8.1.6 **TIME FRAME** -- Community housing is an ongoing joint program of the Federal, Provincial and Municipal Governments. Rent supplement units are cost-shared by the Federal and Provincial Governments.

8.1.7 **REFERENCE** -- Alberta Mortgage and Housing Corporation Act
Chapter A-32.5 R.S.A. 1984

8.1.8 **FURTHER INFORMATION** -- Contact the local housing authority or an AMHC office at any of the addresses listed in the back of this section. Applications for new projects should be directed to AMHC.

8.2 ALBERTA INDUSTRIAL LAND PROGRAM

There is no industrial land assembly or development occurring within the Corporation at this time. The current emphasis of the program is on the sale of land. 1988/89 funds are for the completion of existing projects owned by Alberta Mortgage and Housing Corporation.

8.2.1 **OBJECTIVES**

1. To help municipalities provide an adequate supply of reasonably priced serviced land for industrial purposes.
2. To assist regional communities in attracting suitable industries.
3. To support balanced industrial growth across Alberta.

8.2.2 **ELIGIBILITY** -- Alberta municipalities demonstrating a need and demand for industrial land.

8.2.3 **DESCRIPTION** -- This program is designed in two stages: Land Assembly and Land Development. It is intended to provide assistance to communities wishing to develop land or hold land for future industrial development. It complements the government's position that the decentralization of industry is essential to achieving a balanced economic growth within the Province.

8.2.4 **FINANCING** -- Alberta Mortgage and Housing Corporation finances 100% of the capital costs through funds provided from the general revenue fund of the Province of Alberta.

1. Land Assembly: Alberta Mortgage and Housing Corporation secures and holds titles to suitable lands, in accordance with the following guidelines:

   a) An agreement is made between the Corporation and the municipality whereby Alberta Mortgage and Housing Corporation will hold title to the land for the municipality.

   b) At any time during the term of the agreement, the municipality may request and obtain from Alberta Mortgage and Housing Corporation whatever portion of the land may be necessary for development.

   c) Holding costs (i.e. survey, legal, etc.) are added to the original land costs to determine the price to the municipality.

   d) Holding costs are prorated over the whole project. When any portion of the project is purchased, only the holding costs relating to that portion are paid at that time.

   e) Buy-back periods vary from one to fifteen years.

   f) Unless an extension is agreed upon, on expiry of the agreement (15 years), the municipality purchases any remaining land.

2. Land Development: Alberta Mortgage and Housing Corporation purchases and develops land under a development agreement with the municipality, in accordance with the following guidelines:

   a) Developed lots are sold to the municipality on a fully prepaid basis (i.e. all development costs are allocated in the purchase price of each lot).

   b) Prices of the lots also reflect a prorated portion of the holding costs.

   c) The land is developed to the prevailing servicing standard of the municipality, with certain minimum standards.

   d) The municipality is responsible for sales transactions.

   e) Unless an extension is agreed upon, on expiry of the Development agreement, the municipality purchases the remaining land.

8.2.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.8.2, page 126.

8.2.6 **REFERENCE** -- Alberta Mortgage and Housing Corporation Act Chapter A-32.5 R.S.A. 1984

8.2.7 **FURTHER INFORMATION** -- Municipalities approach AMHC or the Department of Economic Development and Trade for an explanation of the Program. Application procedures are outlined at a meeting with Economic Development and Trade, AMHC and the municipality.

8.3 ALBERTA RESIDENTIAL LAND PROGRAM

There is no residential land assembly or development occurring within the Corporation at this time. The current emphasis of the program is on the sale of land. 1988/89 funds are for the completion of existing projects owned by Alberta Mortgage and Housing Corporation.

8.3.1 **OBJECTIVES** -- To assist municipalities in the provision of an adequate supply of residential housing lots at reasonable costs.

8.3.2 **ELIGIBILITY** -- Alberta municipalities demonstrating a need and demand for residential land.

8.3.3 **DESCRIPTION** -- This program is designed in two stages: Land Assembly and Land Development. It is intended to provide assistance to communities wishing to develop land for needed purposes or to hold land for future residential development.

8.3.4 **FINANCING** -- Alberta Mortgage and Housing Corporation finances 100% of the capital costs through funds provided from the general revenue fund of the Province of Alberta.

1. Land Assembly: Alberta Mortgage and Housing Corporation secures and holds titles to suitable lands, in accordance with the following guidelines:

   a) An agreement is made between the Corporation and the municipality whereby Alberta Mortgage and Housing Corporation will hold title to the land for the municipality.

b) At any time during the term of the agreement, the municipality may request and obtain from Alberta Mortgage and Housing Corporation whatever portion of the land may be necessary for development.

c) Holding costs (i.e. survey, legal, etc.) are added to the original land costs to determine the price to the municipality.

d) Holding costs are prorated over the whole project. When any portion of the project is purchased, only the holding costs relating to that portion are paid at that time.

e) Buy-back periods may range up to fifteen years.

f) Unless an extension is agreed upon, on expiry of the agreement, the municipality purchases any remaining land.

2. Land Development: Alberta Mortgage and Housing Corporation purchases and develops land under a development agreement with the municipality, in accordance with the following guidelines:

a) Developed lots are sold to the public or to contractors on a fully prepaid basis (i.e. all development costs are allocated in the purchase price of each lot).

b) Prices of the lots also reflect a prorated portion of the holding costs.

c) The land is developed only to the prevailing servicing standards of the municipality, within certain minimum standards.

d) In all cases, the Alberta Mortgage and Housing Corporation will be responsible for sales transactions. The municipality may be empowered to handle the initial stage of lot sales.

e) Unless an extension is agreed upon, on expiry of the agreement, the municipality purchases the unsold lots.

8.3.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.8.3, page 126.

8.3.6 **TIME FRAME** -- This program is an ongoing program of the Provincial Government.

8.4 SENIOR CITIZENS LODGE PROGRAM

8.4.1 **OBJECTIVES** -- This program provides room and board accommodation for Alberta seniors who no longer wish to maintain an independent household. Lodges are located in cities and in rural areas so seniors may remain in or near their own community.

8.4.2 **ELIGIBILITY** -- The sponsor for a lodge is the Municipal Foundation composed of participating municipalities in the area.

8.4.3 **DESCRIPTION** --This program is intended for senior citizens who are in good health and able to care for themselves. For this reason medical facilities are not provided in the building although home-care services may be available through local health units. The location of lodges is planned with good access to medical, transportation, shopping and recreational services. Rent, which is fixed at an affordable rate by the Provincial Government, covers meals and housekeeping services. Temporary accommodation is also available in lodges through the Vacation Relief or Respite Care Program.
After construction, the administrative and financial responsibility of each lodge is invested in the local Foundation. The management group selected by the Foundation hires the staff for the lodge, handles applications, selects tenants and manages daily operations.

8.4.4 **FINANCING** -- Alberta Mortgage and Housing Corporation finances 100% of the capital costs including all furnishings and equipment through funds provided by the Alberta Investment Division of the Alberta Heritage Savings Trust Fund.

Once the project is constructed, the Foundation becomes responsible for all operating costs, excluding amortization of the capital cost. Foundations may receive grants to help offset operating deficits through the Lodge Assistance Program.

Most lodges are fully funded by the province. However, under section 56.1 of the National Housing Act, Canada Mortgage and Housing Corporation may contribute to the interest and amortization costs of lodges constructed after 1985.

8.4.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.8.4, page 126.

8.4.6 **TIME FRAME** -- This is an ongoing program of the Provincial Government, with some assistance provided by the Federal government.

8.5 LODGE ASSISTANCE PROGRAM

8.5.1 **OBJECTIVES** -- The Lodge Assistance Program provides financial assistance to lodge foundations to reduce lodge operating deficits thereby reducing the contributions required by the member municipalities of respective Foundations.

8.5.2 **ELIGIBILITY** -- Any foundations or municipalities who operate senior citizens lodge's pursuant to Section 9 of the Senior Citizens Housing Act are eligible for assistance for a portion of any operating deficits.

8.5.3 **DESCRIPTION** -- Any foundation or municipality applying for the Lodge Assistance Grant is required to submit an audited financial statement of the lodge's operating costs to Alberta Mortgage and Housing Corporation. In addition, the foundation/municipality must complete an application showing the latest equalized assessments of all the contributing municipalities.

8.5.4 **FINANCING** -- Assistance is provided in the form of a grant from Alberta Mortgage and Housing Corporation to cover a portion of any operating deficits. The amount of assistance is determined on the basis of the documented financial statements of the lodge and the total equalized assessment of the foundation for the year in which the deficits occurred.

Funding ranges from 25% to 50% of the lodge foundation's operating deficits, but AMHC will not finance the portion of the deficits which is in excess of 35% of the foundation's total expenditures.

8.5.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.8.5, page 127.

8.5.6 **LODGE EXTENDED WARRANTY AND RENOVATION ASSISTANCE**

Upon application AMHC will provide financial assistance to Senior Citizens Lodge Foundations to correct design or construction deficiencies beyond the time of the builder's warranty, or to upgrade safety systems in lodges as required.

8.5.7 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.8.5, page 127.

8.6 SENIOR CITIZENS SELF-CONTAINED PROGRAM

8.6.1 **OBJECTIVES** -- To provide senior citizens with affordable apartments in or near the communities in which they live.

8.6.2 **ELIGIBILITY** -- The sponsor of a self-contained project may be a non-profit organization which includes a municipality, a foundation or an organization constituted exclusively for charitable or benevolent purposes.

8.6.3 **DESCRIPTION** -- A non-profit society must be registered under The Societies Act of Alberta, and may include church groups, service clubs and other organizations. The sponsor is responsible for collecting information on the need for self-contained units in their area and contacting the Alberta Mortgage and Housing Corporation. It is also responsible for the management and maintenance once the project is constructed. Individuals apply directly to the project for admittance.

Tenants must meet eligibility guidelines for acceptance. One year residency in Alberta immediately prior to application or ten years previous residency in Alberta is required. Allocation of units to tenants is prioritized according to income, assets, housing condition and length of time on waiting list. Rent is based on 25% of a tenant's income.

8.6.4 **FINANCING** -- Alberta Mortgage and Housing Corporation finances 100% of capital costs through funds provided by the Alberta Investment Division of the Alberta Heritage Savings Trust Fund. Canada Mortgage and Housing Corporation provides cost-sharing of up to 70% of net operating costs, including amortization on the portion of the capital cost within their approved Maximum Unit Price, over 35 years. The balance is paid by AMHC.

8.6.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.8.6, page 127.

8.7 REVOLVING TRUNK SERVICING PROGRAM

No funds are available in the 1988/89 budget year.

8.7.1 **OBJECTIVES** -- To ensure a long term supply of serviced lots is available and to reduce the financial burden on municipalities by providing funds for the construction of major trunk lines to be used primarily for residential subdivisions in Alberta.

8.7.2 **ELIGIBILITY** -- All Alberta municipalities or any Alberta municipality jointly with qualified land developing companies registered in Alberta.

8.7.3 **DESCRIPTION** -- Priority will be given to those municipalities experiencing a shortage of adequately serviced developable lands. Eligible items for projects are offsite or oversized water and sewer facilities in the following categories:

a) water trunks, pressure booster stations and distribution reservoirs.

b) storm sewer trunks and major storm management facilities (retention and detention ponds, storm lift stations).

c) sanitary sewer trunks and lift stations.

8.7.4 **FINANCING** -- Alberta Mortgage and Housing Corporation finances the capital costs through funds provided by the Alberta Investment Division of the Alberta Heritage Savings Trust Fund. Subject to the execution of a Master Agreement between Alberta Mortgage and Housing Corporation and the municipality and, if applicable, the developer, Alberta Mortgage and Housing Corporation will construct and initially own the facilities. The Master Agreement establishes, among other things:

- The maximum capital cost to be funded by AMHC.
- The developable hectares within the benefiting area.
- The term for repayment of the capital cost and the financing charges.
- The municipality's obligation to purchase a minimum 50% interest in the facility within a 10 year period. This obligation is offset by guarantees of the major land owners within the benefiting area.
- The applicant's (municipality or developer) responsibility to negotiate rights-of-way for constructing the approved facilities on behalf of AMHC.

- The municipality's responsibility to purchase a proportional undivided interest in the facility prior to issuing a Development and Servicing Agreement for land within the benefiting area.

15.1 CANADA-ALBERTA SUBSIDIARY AGREEMENT ON TOURISM DEVELOPMENT

15.1.1 Introduction

The Canada-Alberta Tourism Agreement totals $56.3 million and is cost-shared equally between the Federal and Provincial Governments. The Agreement which runs for five years will provide assistance in six areas: Tourism Facility and Product Development; Alpine Ski Facility Development; Market Development; Training and Professional Development; Industry and Community Support; and Opportunity Analysis and Evaluation.

The purpose and intent of the agreement is to provide a major boost to the tourism industry in Alberta.

15.1.2 OBJECTIVES

1.1 Canada and Alberta have agreed on the following objectives to guide programs and projects entered into under this Subsidiary Agreement:

(a) improve the quality of the tourism industry in the Province of Alberta to compete more effectively in the intra-provincial, inter-provincial and international tourism markets;

(b) to improve sector performance, maximize the potential for human resource development, and increase levels of employment, income and tourism expenditures in Alberta;

(c) to provide initiatives designed to encourage the participation of the private sector in tourism development and marketing to enhance and expand on the strengths and opportunities of growth potential of Alberta tourist destinations;

(d) to provide initiatives designed to optimize the impact and contribution of tourism to economic and social development throughout the Province;

(e) to provide reinforced recognition of the international tourism appeal of the Alberta Canadian Rockies through enhanced development and marketing programs and in turn broaden and diversify tourism destinations, attractions and events in all parts of Alberta.

1.2 In addition, it is the objective of the parties that projects under this Agreement will include initiatives to:

(a) attract more tourists;

(b) lengthen the stay of tourists;

(c) maintain and expand existing tourism products, attractions and resorts;

(d) enhance the year-round appeal of Alberta as a tourism destination and address the problems of seasonality associated with the tourism industry in the Province;

(e) maintain and expand Alberta's appeal as an international ski destination together with other winter attractions, resorts and tourism products;

(f) maintain and improve the existing Provincial tourism plant through programs designed to upgrade, expand and develop the necessary infrastructures to reach the potential of growth;

(g) develop a modern province-wide tourism information service/reservation system that links the various tourism sub-sections and accommodation with the needs of the international tourist;

(h) develop a comprehensive and accurate tourism data base that is essential for development and market planning;

(i) because the tourism industry is labour intensive, and there is a continuing need for properly trained personnel, both formal and on-the-job training and awareness programs will be enhanced and developed to address the demand for qualified and quality personnel in the tourism hospitality sector;

(j) through new and improved mechanisms, in partnership with tourism industry associations and destinations, maintain and expand the organizational structures and their programs to meet the demands for better development and marketing of the Alberta tourism destination.

15.1.3 **Tourism Facility and Product Development** ($26 million over 5 years)

The objective of this program is to stimulate private sector investment in Alberta's tourism plant, develop major destination resorts and other travel generators, and to upgrade and develop associated ancillary facilities and services. It is comprised of the following two parts:

a) General Facility and Product Development

This element will provide initiatives for private sector investment by establishing, modernizing or expanding product lines, year-round resorts, attractions and support facilities.

b) Major Travel Generators

This element will encourage the development of major new tourism generators which will have sufficiently broad appeal to result in the local area becoming a popular destination area or target stop-over for tourists from national and international markets.

A travel generator is any attraction which enhances Alberta as a tourist destination and draws tourists from international and national markets. The tourist traffic that travel generators stimulate should encourage private sector investors to develop ancillary tourism facilities to serve this traffic.

15.1.4 **Alpine Ski Facility Development** ($6.9 million over 5 years)

The objective of this program is to provide initiatives to stimulate private sector investment in existing internationally competitive Alberta Rocky Mountain ski facilities; namely, Fortress Mountain, Marmot Basin, Lake Louise, Mount Norquay, Westcastle Park and Sunshine Village. Examples of project components which could receive assistance are: snowmaking systems, ski lifts, slope lighting, ski trail development, and food and beverage facilities. The program is comprised of the following parts:

a) Planning and Feasibility Studies

Contributions will be provided toward the cost of hiring qualified consultants to prepare plans and/or studies pertaining to project feasibility, conceptual design, engineering feasibility, and master planning.

b) Capital Construction

Contributions will be provided for the direct capital costs associated with ski projects, including design, labor, and purchase of fixed assets and materials.

15.1.5 **Market Development** ($11.975 million over 5 years)

The objective of this program is to position Alberta in national and international markets as an attractive and desirable place to visit, through increased private and public sector promotion of the Alberta destination and its products. It is comprised of the following components:

a) Private Sector Marketing Incentives

This element will provide marketing incentives to the private sector for enhanced marketing activities in national and international markets. Examples of projects which could receive assistance are marketing in support of tourism facilities and events, package tour development, costs associated with bid preparation and foreign attendance building for conventions and conferences, travel trade familiarization tours, and cooperative advertising.

b) Provincial Targeted Marketing

This element will provide funds for targeted market activities which are incremental to present ongoing activities by the Province. It will allow for increased emphasis on new and developing markets.

c) Information Systems Development

This element will provide for the development of tourism information centres as well as computerized enquiry information, reservation, and meeting/conference data base.

15.1.6 **Training and Professional Development** ($3 million over 5 years)

The objective of this program will be to upgrade the manpower skills and professionalism of the Alberta tourism industry. Through this program, contributions will be made available to the private sector, public sector and not-for-profit applicants for the development and implementation of incremental staff and management training, and professional development studies, curriculum development, seminars and courses.

Prospective applicants should be aware that detailed elegibility criteria have not been developed for this program, since the federal and provincial parties to this Agreement were awaiting the results of the Alberta Tourism/Hospitality Education and Training Study (ATHETS) and the establishment of the Alberta Tourism Education Council.

In developing the Training and Professional Development program criteria, the results of the ATHET study will be taken into consideration and eligible projects/courses identified that will not conflict with or duplicate other federal and provincial programs.

Applications for funding under this program will not be accepted at this time. Detailed program information will be provided to interested parties as it becomes available. Any further questions regarding this program may be referred to staff of the Canada/Alberta Tourism Agreement.

15.1.7 **Industry and Community Support** ($2.5 million over 5 years)

This program provides support to tourism industry associations, community, and private sector participants. It is comprised of the following elements:

a) Tourism Industry Awareness

An awareness campaign will contain educational, promotional, and incentive aspects directed at the general public, industry, educational institutions, and the various levels of government. Examples of activities which could be assisted are: cooperative advertising, editorials, newsletters as well as the development and distribution of tourism awareness materials.

b) Community Tourism Development

The objective of this element is to encourage Alberta communities to recognize the economic and social benefits from tourism by initiating and coordinating theme development, development and improvement of facilities, attractions and events. It will provide contributions for hiring consultants to initiate and coordinate community theme development, improvements of facilities, attractions and events.

c) Exploration Guides

This program is designed to provide assistance for tourism areas in the Province to develop high quality guide books for areas identified by a common theme or as a scenic/historic/designated route.

15.1.8 **Opportunity Analysis and Evaluation** ($3.8 million over 5 years)

This program is intended to initiate and support studies that are required to make informed decisions in the development and marketing of the Alberta destination and its facilities and products. Its primary objective is to identify and assess tourism development and market opportunities related to the programs which will be implemented through the Agreement.

15.1.9 **Administration, Public Information and Evaluation** ($2.125 million over 5 years)

15.3.2 **MARKETING PLANS** -- Each Tourist Zone in Alberta, in consultation with the tourism operators in that Zone, will prepare annual marketing plans for the region.

The plans will include details on marketing projects proposed for funding under this program. These projects must:

An annual plan is to be submitted by October 1 of each year, with a supplementary update submitted by July 1 of the following year, containing more detail on winter programs.

However, in 1988 the start-up marketing plan should be submitted on September 1 if marketing activities prior to March 31, 1989 are proposed.

16.11 NORTHERN SUPPLEMENTARY FUND ASSISTANCE PROGRAM

16.11.1 **OBJECTIVE** -- To provide funding in northern Alberta for initiating or improving water and sewage facilities where, even with local revenues and other sources of income, the costs of projects are far in excess of the provincial norm.

16.11.2 **ELIGIBILITY** -- Available to municipalities within the jurisdiction of the Northern Alberta Development Council. Preference will be given to communities with a demonstrated health problem, low tax base, and insufficient sources of other funds so as to render the project financially feasible.

16.11.3 **FINANCING** -- The program is administered by Transportation and Utilities. Overall program coordination and direction is provided by the Northern Supplementary Committee consisting of representatives from Alberta Municipal Affairs, Northern Development Branch, and Alberta Transportation and Utilities.

Applications will be assessed similar to projects receiving funds under the Alberta Municipal Water Supply and Sewage Treatment Grant Program. Basically, the Northern Supplementary Fund will serve as a mechanism to reduce the community's share of the project cost beyond those funds that may be available from Alberta Municipal Water Supply and Sewage Treatment Grant Program.

16.11.4 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.16.11, page 129.

16.12 ALBERTA MUNICIPAL WATER SUPPLY AND SEWAGE TREATMENT GRANT PROGRAM

16.12.1 **OBJECTIVES** -- To assist municipalities with the capital cost of installing modern and adequate facilities for water supply and sewage treatment.

16.12.2 **ELIGIBILITY** -- Cities (under 100,000 in population), towns, villages, summer villages, hamlets and regional commissions established under the Municipal Government Act are eligible for assistance from this program. In addition, the Minister may require that the appropriate municipal grants be directed to the regional commissions where it has been demonstrated that the implementation of a regional water and/or sewage scheme is the most cost-effective and environmentally sound proposal. Cooperatives are not eligible under this program and should refer their situation to the county, municipal district or improvement district in which they operate.

16.12.3 **ELIGIBILITY OF PROJECT** -- Water supply projects, such as water storage facilities, water treatment plants, wells, supply lines, and some transmission mains, are eligible for assistance. In a municipality without any existing water system, the distributions system is also eligible.

Sewage treatment facilities, some trunk sewers and outfall lines are eligible for grants, as is a sewer collection system if there was no previous system in the community.

Small projects, such as the addition of fluoridation or chlorination facilities, are also eligible.

The Department should be contacted for an assessment of project eligibility when undertaking any water or sewer project.

16.12.4 **FINANCING** -- The demand for financial assistance may exceed the available budget, and it is therefore stressed that this program will be administered on the basis of funding being provided only to projects as prioritized by the Government of Alberta.

First-dollar sharing of costs was introduced in July 1983. Projects costs are shared on a 75/25 provincial/municipal basis for the first 600 persons, and on a 50/50 basis for the population from 601 to 100,000. The grant calculations take into consideration the accumulated costs of projects which have received grants since the introduction of the program in April 1979. Municipalities receiving assistance from this grant program will be encouraged to support Alberta companies supplying goods and services to the waterworks and sewage industry.

The upper limit remains at $2,100 per capita for communities of 600 or more population. Communities of less than 600 population will be eligible for a proportionately larger grant. In this instance the formula is $2,100 + $5(600 - population) for the upper limit. For example, a community with a population of 300 would have an upper limit in the program of $2,100 + $5(600 - 300), or $3,600. Now all communities, regardless of size, will be reasonably assured of the opportunity of having affordable water and sewage systems.

The specific grants will be calculated by the Department of Transportation and Utilities in accordance with established priorities and criteria. Municipalities must not assume that a grant will be provided until such time as written confirmation of said grant is received from the Minister of Transportation and Utilities.

16.12.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.16.12, page 129.

NOTE: The budget allocation includes an allowance for the Agricultural Processing Industries Grant Program.

16.12.6 **TIME FRAME** -- This assistance program was implemented on April 1, 1979 and is an ongoing program of the Provincial Government.

16.13 REGIONAL UTILITIES PROGRAM

16.13.1 **OBJECTIVES** -- To provide cost-effective and environmentally acceptable water and sewage facilities jointly to two or more municipalities.

16.13.2 **ELIGIBILITY** -- The following criteria is used to establish eligibility under the Regional Utilities Program:

1. The urban and rural municipalities serviced must be considered municipalities under the Municipal Government Act. In some cases, commissions are formed under the Regional Municipal Services Act.

2. The development of regional systems should be more cost-effective and/or environmentally desirable than independent facilities.

16.13.3 **FINANCING** -- Assistance may be provided to municipalities/ commissions in two ways:

1. Capital Projects

   The province initially provides funds for the project and oversees the total construction and management of the project. Once completed, the facilities are turned over to the municipalities, with the municipalities reimbursing the province for their share of the costs.

2. Grants

   The municipalities manage the implementation, design and construction of the project, with the funds being provided to the municipalities in the form of a grant calculated as per the terms of the Alberta Municipal Water Supply and Sewage Treatment Grant Program.

16.13.4 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 17.16.13, page 129.

16.13.5 **TIME FRAME** -- This assistance program was implemented on April 1, 1979 and is an ongoing program of the Provincial Government. However, it is anticipated that the majority of future projects will be undertaken by the municipalities/commissions.

16.14 AGRICULTURAL PROCESSING INDUSTRIES GRANT PROGRAM

16.14.1 **OBJECTIVE** -- To assist municipalities with the development or expansion of water and sewer facilities to accommodate agricultural processing industries.

16.14.2 **ELIGIBILITY** -- Assistance is available to municipalities eligible under the Alberta Municipal Water Supply and Sewage Treatment Grant Program, i.e. cities (under 100,000 population), towns, villages, summer villages and hamlets.

16.14.3 **ELIGIBILITY OF PROJECT** -- Municipal water and sanitary sewage projects that are required to accommodate agricultural processing industries are eligible for financial assistance. Water projects, such as distribution system extensions and replacements, intakes, supply lines, wells, treatment and storage facilities, and transmission lines are included. Sewage projects including collection system extensions or replacements, treatment facilities and outfall lines are also eligible. On-site pretreatment facilities may also be eligible in some instances. The department should be contacted for an assessment of project eligibility prior to undertaking a water or sewer project.

16.14.4 **FINANCING** -- Projects approved under the program are cost-shared on a 75/25 provincial/municipal basis for the first 600 persons and on a 50/50 basis for the population from 601 to 100,000.

This new program allows for the removal of the $2,100 per capita funding limit. The demand for financial assistance may exceed the available grant dollars, and therefore it is stressed that this program will be administered on the basis of funding being provided only to projects as prioritized by the Government of Alberta.

16.14.5 **PROVINCIAL BUDGET** -- This program is administered in conjunction with the Alberta Municipal Water Supply and Sewage Treatment Grant Program.

16.14.6 **TIME FRAME** -- This is a five-year program effective April 1, 1986.
